

Test Plan for Maketrip portal- Flight Website

1. Test Plan Identifier

File Name: 1.0_Maketrip portal-Flight_tplan_v1.0.doc

- Document Name: Test Plan – Maketrip portal-Flight
- Version: MMT_BP_1.0
- Date: 28-Aug-2026
- **Location:** CBIT Hyderabad

2. Document History

REV	Author	Edits	Date
1.0	Sai Kirthana Konduru, Graduate Engineer Trainee	Initial Draft	28/08/2026

3. Introduction

Maketrip Portal – Flight is an online flight booking application designed to help users search for international flights based on trip type, location, travel dates, number of travelers, and service class. The application allows users to select trip options, enter departure and destination locations, choose travel dates, specify travelers, and select a service class before searching for flights. This test plan defines the testing approach and scope required to validate the functional behavior, usability, and reliability of the Maketrip Portal – Flight application.

4. Test Items

Specifies **what components/modules** will be tested.

Example:

- User Registration Module
- User Login Module
- Trip Selection Module
- Flight Location Module
- Nearby Airports Module
- Travel Dates Selection Module
- Flexible Dates Module
- Travelers Selection Module
- Service Class Module
- Flight Search Module
- Flight Search Results Module
- Validation and Error Handling Module
- Logout Functionality

5. Features to be Tested

Medium priority features are features that have been stable and High Priority features are features that have been recently changed.

Feature to be Tested	Priority	Comments
User Registration	High	
User Login	High	
Trip Selection	High	
From & To Location Selection	High	
Nearby Airports	High	
Departure & Return Date	High	
Flexible Dates	High	
Travelers Selection	High	
Service class and Flight search	High	
Logout Functionality	High	

6. Features NOT to be Tested

- Help Contents and user manuals will not be tested.
- Installation and presentation will not be tested.
- Support of the other architectures also will not be tested.
- Third-party payment gateway internal logic
- Legacy modules not impacted by current release
- Experimental features

7. Test Environment

① Device info

Device name	LS05
Processor	11th Gen Intel(R) Core(TM) i3-1115G4 @ 3.00GHz (2.19 GHz)
Installed RAM	8.00 GB (7.75 GB usable)
Graphics card	Intel(R) UHD Graphics (128 MB)
Storage	168 GB of 238 GB used
Device ID	455679BC-608C-4EEF-8DCC-A812595DAB8E
Product ID	00330-80000-00000-AA736
System type	64-bit operating system, x64-based processor
Pen and touch	No pen or touch input is available for this display

Windows info

Edition	Windows 11 Pro
Version	25H2
Installed on	03-07-2026
OS build	26200.9168
Experience	Windows Feature Experience Pack 1000.26100.344.0
Microsoft Services Agreement	
Microsoft Software License Terms	

8. Test Approach / Test Strategy

Describes **how testing will be performed**.

The test strategy for Maketrip portal-Flight will include manual testing with automated testing(**Selenium With Java**) where time/need permits. Automated testing will be used to test the basic Interface objects keyboard and mouse navigation or any redundant tasks best translated to automation. Automated testing will be limited to a Win-64 platform because of Automation tool limitations.

- Sanity test will include an very short battery of tests to ensure the Naukri1.0 runs/launches and can connect to the back end database(**MySQL /SQL Server 2025**). Test execution will happen as individual component testing. These tests will be fully automated.
- **Acceptance tests** will include a short battery of tests that will only touch major features to ensure Maketrip portal-Flight will operate smoothly at a basic level. These tests will be executed on **Windows 11 Pro**. The goal will be to automate all of these tests.
- Full Functional tests will include a **comprehensive test** of all features listed in this document. These tests will be limited to the Windows 11 pro. These test will include automation with time allowing.

8.1 Types of Testing

- Smoke Testing
- Sanity Testing
- Functional Testing
- Integration Testing
- System Testing
- Regression Testing

8.2 Test Levels

- Unit Testing (by developers)
- Integration Testing
- System Testing
- Acceptance Testing

8.3 Test Techniques

- Black Box Testing
- Boundary Value Analysis
- Equivalence Partitioning
- Error Guessing **Functionality Testing**

Usability Testing

The usability testing will be accomplished by verifying the information in each window are accurate. Menus, icons and toolbar functionality will be tested as applicable to the navigation and results panes. Multi Window Overlapping will be tested because product supports opening of multiple documents.

Robustness/Reliability Testing

Test the GUI for correct keyboard and mouse navigation, windows, menus, buttons, etc. These tests will include Keyboard only navigation of Naukri1.0, Mouse only navigation. Correctness and existence of warning/error dialog boxes. The correct/expected functionality of buttons, icons and menus.

Stress Testing

Not applicable

9. Entry and Exit Criteria

9.1 Entry Criteria

Conditions to start testing:

- Requirements approved
- Test environment ready
- Test data available
- Build deployed

9.2 Exit Criteria

Conditions to stop testing:

- All planned test cases executed
- Critical and high defects closed
- Test summary report prepared

10. Test Deliverables

Test plan	1.0_ Maketrip portal-Flight_tplan.doc
Test Specification	1.0_ Maketrip portal-Flight_tspec.doc
Test Automation Plan	TBD()
Test Checklist	TBD
Test Logs	TBD
Test tools	Selenium 4.47, Postman, Rest Assured, Jmeter, Jenkins, Git and Git Hub and Appium and MySQL Server 2025

11. Testing Tasks & Resource Needs

- Use of MySQL Server database.
 - Write Test Specification.
 - Write Test Automation plan.
 - Write Test Checklist.
 - Setup workspace.
 - Develop Automation script.
- Minimum requirements for platforms:

12. Schedule

Test Documentation

<i>Document</i>	<i>Development Time</i>		<i>Sign-off Date</i>	<i>Dependencies</i>
	<i>Person-Days</i>	<i>Completion Date</i>		
Test Plan	1day	28/08/2026	28/08/2026	Functional Spec. Review
Test Specifications	1 day	28/08/2026	28/08/2026	Test plan, Functional Spec, Review
Test Logs	TBD	28/08/2026		
Test Summary Report	TBD	28/08/2026		
Checklist	TBD	28/08/2026		

Test Development

<i>Deliverable</i>	<i>Development Time</i>		<i>Dependencies</i>
	<i>Person-Days</i>	<i>Completion Date</i>	
Functional Test Suite	1	28/08/2026	
Automation build			

<i>Deliverable</i>	<i>Development Time</i>		<i>Dependencies</i>

Test Execution

<i>Test Activity</i>		<i>Execution Time (Person-Days)</i>			<i>Dependencies</i>
		Alpha	Beta	FCS	
Acceptance		1 Day	1 Day	1Days	
Functional	Functionality	1	1		
	Usability	All High to Medium test cases			
	Robustness				
	Stress				
	Multi Inst.				
Regression					
Documentation Review		1	1	1	
Total Test Cycle		1	1	1	

13. Risks and Assumptions

Risks:

- **Environment Instability:** Delays in setting up the test environment could impact the schedule- VM is not working port no.-5103
- **Resource Availability:** Limited availability of testers could delay test execution.
- **Late Requirement Changes:** Changes in requirements during the testing phase could lead to additional testing efforts.
- **Contingencies:**
- **Backup Resources:** Have backup resources ready to join the testing effort if required.
- **Flexible Schedule:** Allocate buffer time in the schedule to accommodate unexpected delays.
- **Regular Communication:** Hold daily stand-up meetings to quickly address any issues that arise

14. Approvals \Sign of

POSITION *Approval required	NAME	SIGNATURE	REVIEWED	APPROVAL
